PROFFESIONAL SUMMARY

Passionate and detail-oriented Frontend Software Engineer with 3 years of experience crafting exceptional digital experience. Specialized in building high performance, responsive, and accessible web applications using modern technologies like React, Next.js, and Typescript. Proven ability to transform complex design into clean, maintainable code while delivering smooth user interactions and optimized performance

TECHNICAL SKILLS

Frontend

React • Next.js • Typescript • JavaScript (ES6+) • Tailwind CSS • Framer Motion

Styling & UI

Tailwind CSS • CSS3 • CSS • Styled Components • Shadcn/UI • Radix UI

Tools

Linux • Git • GitHub • Vercel • Figma • Postman • Redux/ Zustand • React Query • Framer Motion • GSAP • Vite

Currently Learning

Python • AI Integration

PROJECTS

FitThread (E-commerce-Platform)

gitHub (<https://github.com/Onaolapo555/fitthread>)

- A modern, full-stack apparel storefront designed for seamless shopping. Features fluid navigation, secure checkout, and intuitive product filtering.

AI Content Dashboard (SaaS Productivity Tool)

gitHub (<https://github.com/Onaolapo555/AI-Content-Dashboard>)

- This application serves as a centralized hub for digital creators looking to streamline their creative production workflow. By leveraging advanced language models, the dashboard generates tailored blog posts, engaging social media captions, and optimized YouTube scripts based on minimal user prompts. It includes an intuitive analytics interface, content categorization tools, and a polished user interface built to minimize friction and boost creative output.

Multi-Step Onboarding Form (Interactive Form Architecture)

gitHub (<https://github.com/Onaolapo555/multi-step-form-main>)

- This application solves one of the trickiest challenges in frontend development: managing multi-step user state without losing data between views. The interface seamlessly walks users through selecting subscription tiers, toggling monthly or yearly billing intervals, and picking add-on features before providing a final editable summary. It incorporates comprehensive input validation, error handling, and fluid state persistence to guarantee a highly polished user onboarding funnel.

EDUCATION

Bachelor of Science in Computer Science

Emmanuel Alayande University of Education Oyo, Oyo State

- **Relevant Coursework:** Web Development, Data Structures, Computer Programming in C, Python and Basics, Digital Logic Design, Introduction to Object Oriented Programming, Descriptive Statistics.

2023 - Present

CERTIFICATION

- CS50x: Introduction to Computer Science - Harvard University
- CS50's Introduction to Programming with Python - Harvard University
